

INSTALLATION INSTRUCTIONS

Part Number HA-7594

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure that the K&N Filtercharger® seals properly.

Installation

- 1) Remove stock air filter according to the factory repair manual.
- 2) Carefully clean the inside of the airbox.
- 3) Remove the stock o-rings from the airbox base and top grooves. (Fig. 1 and Fig. 2) This allows the sealing beads of the K&N Filtercharger to fit into the grooves of the airbox base and top.
- 4) Re-install K&N Filtercharger according to the factory repair manual.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
